

ACI Concrete Mixer Machine

- **Lightweight:** can be easily transported from place to place.
- **Smart lever system:** drum rotation fixed during resting period.
- **Tubeless wheels:** For puncture-free movement.
- **Strong Build:** Uses Japanese steel for longer lifetime.

Model/Type	470L
Mixing Tank Capacity (L)	~420
Number of bag	1.5 to 2.5
Capacity Per Hour (M3/H)	8 to 10
Rotation Speed (RPM)	30
Length of Machine (MM)	2150
Width of Machine (MM)	950
Height of Machine	1550
Required Electric Motor (kW)	>3.7
Weight (KG)	280
Drum's lower part thickness (MM)	3.5
Drum's side and upper part thickness (MM)	3
Drum's diameter (MM)	920
Mouth drum's diameter (MM)	480
